Master Matthew Boulton

Tuesday evening ~~at~~ about nine o'clock I saw a Man lying
in the River called Creeper River about fifty rods W of Peter's Mill
which is called the water about eight inches deep when his head lay
near two feet deep when his feet lay his great coat over his head
and a stone about fifty pounds weight lying on his neck on head
I will ~~write~~ draw him out of the water but I am in a hurry and
cannot time to do it at present when he was in
being.

I saw the Man lying in the water as above testified by Mr Boulton

On Saturday last I saw a Man about two o'clock passing my
house with a hatbox on his head but it appears to me to be the same
Man now being dead, he was going to the left
about one hour after I saw two Men pass my house to the left
on foot they carried a little bundle on his shoulder
the other I think a little wallet on his head blue swans leather
short jackets or great coats held up colour I am uncertain
about.

On Saturday last about two o'clock a Man goes Mr Shepherd
he engaged I saw the way to Mr November, he had a horse and
appears the same that is seen as found by Mr P. P. P.
