Had we those judges among us, how many cheats Had we their judger among us, how many chears and harpers, who live by defrading the unwary public, would be obliged to lay afide the name of gendleman, and work for their brelinood in an honeft maner? And how many fine ladies and gendlemen, whole whole time is taken up in dring nothing, would be condemned to four fevere penance, would perhaps awaken them to a fenfe of their being reasonable beings? How happy for us would it be if there were laws against idlenes, such as would oblige errey man to give an account of his time, and he answerable for his way of life.

Seneca fays, we all complain of the shortness of time Sepecatary, we ail computation that amount is of time and yet we have much more than we know what to do with. Our lives are either front in doing nothing at all, or in doing nothing to the purpole, or elfe in doing to the purpole, or elfe in doing the purpole of the purpole, or elfe in doing the purpole of the purpole, or elfe in doing the purpole of the purpole o years and travel through time as thro a country filled with many waltes and wilds, which we fain would hipry over, that we may arrive at those feveral fettle-ments, or imaginary points of rest which may seem dis-perfed up and down.

Every member of seciety is under a meir obligation

to contribute to the general good; he is unjuly if he does not, and ought to be looked upon as a bardenfome member; and as he will do nothing for the public, ought to receive no protechion from it.

## For the HAMPSHIRE GAZETTE.

To the free FLECTORS of MASSACHUSETTS.

ON the freedom of Elections depend the liberties of the people, on the wildom and differentiest which govern them depend the welfare and happiness of the community.

the community, Without willing to raile one character at the ex-Without wilking to raife one character at the expense of another, without defigning to influence your judgments by cading any reflections upon the prefent Governour. One fact is however obvioud, certain, that such is and has been the faste of the Governour's health, that he has paid but little attention to the public butinets for these twelve months path, that nec October last, except in one or two influences, he has been confined with sickness to his houte, a bed-leamber—and has been fo much afferded with the cour in his limbs, that he kas in some inflances, been obliged to omit his signature to public papers, whill in others he has signed the public acts with his left hand only.

If there ever was a day that called for the after ex-

only.

If there ever was a day that called for the aftire exertions of a Chief Magilitate, if there ever was an arathat required industry, attention and wistom in the perfon holding this important office, it is the prefent.—
The man then to whom the people ought to entrust this department of government, should be one who has wistom to diteen, signates to pursue, and industry and attention to execute what shall be for the best good of attention to execute what hall be for the belt good of the community. A man too in whom the people may place a just confidence, for his virue, integrity and patriotism. Such an one, if such an one there be, ought to receive the instrages of a free people for their Chief Magistrate.

Impry 1817 for Massischuseus, that the posities such

a character—and thrice happy would it be, if her citi-zens should again unite in bestowing their suffrages on this diffinguished character. The character I mean is

## The Hon. JAMES BOWDOIN, ESQUIRE

A peculiar wifdom and propriety marked his admini-A peculiar wildom and propriety marked his administration during the two rears he was in office. But mnfortmately, envy and inalier, ever attendant upon viruse, by wicked and hale infunctions, which your cown experience my fellow citation, have proved to be faile, notized in fonc measure the lispsy effects of his diffinguished abilities. He did more in the two years of his administration, towards refloring the twages of war and the credit of government, than had been done the whole time preceding his administration, and had it not have been for the diffinite accided against him, our public difficulties (in all probability) would have been erethis wholly wiped away thro his wildom and exercition.

Let us then again unite in this diffinguished patriot for our Chief Magistrate, that the community may once more have the opportunity of reaping the fruits of his great political knowledge and experience.

ONE OF THE PROPLE.

"Tis upt the fluic les get by rate, The pomp of words abselved differentiate, That can support in the burs of terror. Book have raught counts to talk achly of it, But suber the trial can they flart and fland aghaft.

THE S P Y.

To flep afide fifth mingled life of bufiness or pleasure and and the last bours of a friend or relation, is an office with fills as if not with melancho-I plealure and met the left hears of a friend or a relation, is an office with fills as if not with melancholy, at least with ferior reflections on those fubjects, the property of the property of the property of the certainty, are genally feeluded from our regard by the joility of health the hurry of employment, and the calmer directions of findy and speculation.—

The only conviction it, makes upon the foul, and cakes away from our apicities and passions the power of resiliance, is to be food at the set of a style friend. To enter this fethod of stiflow is not the peculiar privilege of geometriciat. Happily these most fublime and important precepturaguire no uncommon opportunities nor laborious reparations, they are enforced without the aid of closence, and understood without fetentisch kill. Ever progret can inter them, and every understanding can conscive them. Whoever defines to enter behind the form, which every see has been employed to die and every passion labours to illuminate, and var to fee his firipped of choice or and the design of the control of the control of the control of the control of the frequency of the strong of the frequency of the frequency with the first of the frequency of the frequency of the frequency of the frequency with the first of the frequency o

mail.

Yet from whatever code it arises the proper effects which the observation of death ought to produce, are but feldom found among the walgar of mankind.—
They fee their friends, and their hemits sink into the but feldom found among the vulgar of mankind—
They fee their friends and their hamies fink into the
grave without any uncoronness motion, or reminding
them that they are themselves on the "deg of the preceipice, and that they notif food plunger into the gelph of
eterative. Indeed though the world is crowded with
feenes of calamity, we look upon the general mafs of
wretchedness, with little regard, and fix our of es upon
fome particular perfon whom the entinence of fiss qualitice, has marked out from the multitude; as in reading
in account of a battle-pare feldom reflect on the vulgaheaps of floughter, but pollew the hero through all the
varieties of his forum; regardlefs of the houtfans,
that are failing aronnel him. Events of which we all
confests the important. Events of which we all
confests the important. Event of which we all
