But in the forests of focial blifs. Does place his whole delight;
Each day new pleasures him affords,
And eke the same at night. 111

He like the nobleft tree that grows, By waters fair and clear, Where ftorm, nor tempelt ruffles him Nor does he danger fear.

Chearful and eafy are his days,
Soothed by a conflant bride,
Gay frenes attend him every hour, When the is by his lide.

Not fo the lufty Bachelor. Not to the last Backetor,
Who lives a life fortorn,
Perhaps diffusio'd by female fex,
He vents his rage with fourn.
VI.
Thus they deride the happy flate,

At merriage rail and lour; So the fly fox who grapes can't reach, Exclaims, they all are four. VII.

Hail wedded love, in heaven form'd. To temper all mankind;
There's none but brutes, or felfish dolts,
With it a fault can find.

The TENDERNESS of LOVE. SHAPE alone let others prize, And features of the lair, I look for 'pirit in her eyes, And meaning in her air.

A damafk cheek, an iv ry arm, Shall ne'er my wishes win, Give me an animared form, · That speaks a mind withi .

A foul where awful honour fhines. Where feme and fweeinels move,
And angel innocence refines,
The tendernels of I we.

With pow'r to heighten ev'ry joy, The fiercest rage controll, Diffusing milduels o'er the brow,

And raptures then the foul.

V.

Thefe are the powers of beautie's charms, Without whose vital aid, Unfinish'd all her beauty seems, And all her roses dead,

VI.

But how divinely filines the feam,
Where all these charms appear,
Then go behold my Anna's face,
And read them petted there.

HOLY BIBLE.

Printing-Office, Worsefier, Oneber 1, 1790.

MR. THOMAS most respectfully begs leave to informable Public, that his Edition of the LARGE ROYAL QUARTO BIELE, is now committed to the

ANYAL QUARTO BIELE, is now committed to the Frefs, and will be carried on with all the dispatch that the nature of the work, will permit.

The many discouragements but ad met with imgetting forward with this large, ease five and important undertaking he finds hive principally artien from perpicing general being unacquanters with the Real fine of a Royal Quarto Bible, many suppose that there is no difference in the fize and quality of Quarto Bibles; whereas, there are Quarto Libres and solities. The Leitina he proposed to rint, and it snow printing, is of the largest kind of Quarto, and on the first quality; and the British Editions are commonly tool in this and the the British Editions are commonly sold in this and the other States at Light Dellars cash—his Edition is to be but deven Datter, and we need that they findl be at least equally as good—findlet quarto listles are fold from 10/10 atf. each.

He begs all fuch as have been diffeouraged from fob-

The began the na have been citicorraged from tob-feribing, from an identiate the work would be high priced, to make themfelves acquainted with the vari-ous fizes and prices of Biblis and they will from per-cive their militate. He is confident that when the re-al fize of the edition is known, that every objection 2s to the price will be removed, and that it will actually

be found tone cheaper than any Edition of its face and quality now-felling on this Continent—he pledges him felf that it fluil be fo.

In full affurance, when the facts are known, that he finall be encouraged, he is now proceeding with the work:—He requests that the Reverend Cliergy would examine into the truth of his affertions, and undeceive fuch as here for each of his affertions, and undeceive furth as the research of the services and the services are the s fuch as have formed a wrong opinion as to the fize, quality and price:—Fie wishes for a continuance of their exertions, now the work is in the Prefs, to obtain subscribers—such as have not returned the Subscription Paper will be pleafed to do it by the first day of June next—Those who have returned their papers, and are next - Those who have returned their papers, and disposed to make another trial, will be again furnished with specimens, on giving information to their, an the Public's most obedient and very humble fervant, ISAIAH THOMAS.

NORTHAMPTON, (Massachuserrs) Publified by WILLIAM BUTLER.

As ALLEGORY spin FRIENDSHIP.

RICH merchant had an only fon, whose he ten-derly loved : he brought him up with all ima-A derly loved - he brought him up with all imaginable circ, and fared no expenders to form his heart and adorn his mind : the education of the youth being nearly compleated, he refolved to lest him strayed, without a first him the control of the control of the him through the compleated he refolved to the him through the most prefine wants of human life, the greated is a time friend. Extravagance despoits on of our index; a reverse of our fortune this was, the most powerful into allowering; but each did not express the most power can take from ms. find bor one friend in the coarte, of your life, and you will have decreate the first and agrared; of all hisfiness. I should with therwise, my fon, that you would mavely much experience it gained, from an argument of the world in the coarte, and the world in which the mure we know to make the history love to finds it; it is a faithful mirrour that redeches out you gain any unfatted out of the mure has been we are enabled to live among them. The world it is voluntation book, which informs him that throw how to finds it; it is a faithful mirrour har redeches out you gain any unfatted or the more of the marking out of the most way to make the my fon, and think no expenditude of for marking out the first of the most way that it is the start of the marking out the most in obtain it; the most valuable things you public.

The young man took leave of his father, and fer our for a country not very remote from his own, where relided fome time, and afterwares returned home.

ireided folle tithe and atterwards returned hume. "It did not expert you fo foots," faid the father, forprized it is quick teather." "You detect one," replied the fon, "to feek out at fiscally and I have bro'r fairy, who are pattent of sperfed friends and I have bro'r fairy, who are pattent of sperfed friends in."

"Do not my fon, "answered the merchant," promines thempered name; have you forget what the Frium poet fairy I had me of your friend before you have the fine the first part of the state of the pretend to that the friends of the series of the series of the first part of the greated pair of those who pretend to that the have not the first part of the state of the first part of th by of that bewitching liquor remains in it; and callition in ground what kempty. I am smoch afraid, that the you's ten in the foul faith of with, are like the faile and microany fools, whom I have given you a pichne of. "Father," replied the foo, your children is unjult; those whom I confider as my friends, would look on me in advertity, without affect picconfident with their professions."
"I have lived feventy years, "faid the merchand, "and have experienced both had and gird fortune; I have had a large and intentions acquaintance; but it follows a revolution of years, I have had large and intentions acquaintance; but in fool a person of your youth, In for hot species of time, have found fifty? Learn from me to know maintaid."

The hierarchiant ordered a facep to be killed, and

ne to know mahkind."

The herebant ordered a fleep to be talled, and put into a fack, and with the blood of that arised time ged his fank clother; had every thing being that prepared for the deliga he had formed, he published the excession of it till night. He laid the fack with the hope in the pohythered for the synony man, who was instructed in the port hereband to the synony man, who was instructed in the port hereband or the synony man, who was the process of the synony man.

the lon knocked at the does of one of his fifty The four mocked ar the doesn of one of his fifty litted, who immediately opened it to him; and earliefly equalited the chairs of his downing. "It wit a time of differing," (5d the youth, if that we prove the friend hipsot that we horr? There'ofter recointed its you an old aximotity (mabiling between line, family with that of a forth of the court; chairs brought of rought, it is retited place) hatred drew our twends, and i link him breathlefs at my feet. "Fearful of a dicoverr, have brought the body in this fact, and bey you will conceall; in your looke all the affair be blown over at adjuded," "My hoose is to finall, "replies his friend, but an air of concern and inquirerule, "that it can transfer the action of the control of the c Aljohed. "" My hoose is for finall, "replies his friend, but an air of concern and inquiertude, " that it can learned contain the driving that refude in it; and where the large contain the driving that refude in it; and where the large contains the driving that the large contains the large contain The young man repeated his requel, but without fuc-cies in definit; at length; of prevailing with this friend, he applied fucedirely to the whole lifty, on whole functive line had form wently depended, and fifty born he mer with the fame recent tion. It confers my same incerter and to anways operator. "Canleft, my-four, had the vice have reception." Canleft, my-four, had the vice have to have in the reliance is to be made upon men, what is become of the select that whom you so highly created not bey have all

out, "Oh, threchaply, day! which schools me any opportunity of giving a proof of say attachment; if, you depend on me, you will do me pitties emy houte is large enought to conceal a thousant dead choice; but though it were inconsensed; or even dangerout for me. I would chertfully nik it, in hopes of faving you. Rettire, you and your font on we chair in the eneuty; you will there live undiminised, standown, and forms the products of international services.

you will there tree redistribed, dramown, and tecure from the parisits of judice."

The acretaint, after making proper acknowledgements for the generous offers of his treend, rold birm, that the whole transfation its had related, was nothing more than artifice, invented to extend the foot, how to distinguish a falle from a real friend.

WORCESTER SPECULATOR.

VERY featon of the year, like the life of sun, is incremized, more or left, with beauties and deflurant incremized, which is the feet on of an incute, Writer like ald erg., has more of feath than of hopes, more of pains dans of pleasures; its days and nights are ledicated only in the sun of opinion dans of pleasures; its days and nights are ledicated for your more of propositions, and in the manure age of man, is temped a feather. It prefers we fifth with finding beauties, falling leivers, mipping from planting from groves, and such this is defined by the prefers of the leaf, the wind greeneds of the leaf which has been the such as a proposition of the leaf of the leaf the winder of the leaf of the leaf the weakned decay and difficultum. While the leaf the winder of the leaf of the greatest feeturing days when it false, where is an evident falling and fall of the leaf the winder of the leaf of the leaf the winder of the leaf of the present feeturing days when it false, where is an evident falling and fall of the leaf the winder of the winder leaf of the leaf the winder of the leaf of the leaf the winder of the to be blown off, by the winds. Leaves are the tenders of parts of the virty, and infollogued of a bendinged by frolks, blatted by spilders, eaten by worst? he terration their branches by the rude tempets. By the leaves two, are discovered the earlieft symptoms of the floorishing or decay of the tree which produces them, in all their explorations are emblematical or many and six all their explorations are emblematical or many and six all their circumfitures they are sinded to by, written both facility of the facility of man faddens almost except up to the Ribbe. While we read over the accounts of the functions generations, and of the various mations which lake inhabitor this globs, we fee them fading falling, and driven away, like leaves in wyndy Anturmi.

fee them fading falling, and driven away, like leafes in windy Antunni.

Man being formed of the duft of the ground, his body is necessarily fields, frait and sperifing. Being composed of disageing and feparable particles of folds a flatidistacratical, his body carrier in the feed of disage, and the principles of distination. And if we consider the quality of the food we say of the lives of t

n tuins. All this is confined by our own observation and experione. We fee in others; we feel in ourfelves, the fymptoms of decay; the approaches of diffoliations, and the harburges of death. Difeafes, pains and enfoliations, increasing the barburges of the control of the co nee, names as nomer and variety are, every difference place, actwork, making their ravages as our feethernee, like airping frollisor boilernos we carrieding worms, anong the tender leares.

While man is growing, like is in decay, And visuler notes marrer to the tomb.
Our buth is nothing but our death begon, Antapers walle the moment they take fire.

As four learers are from our wither while in

"Our birth is nothing but our death begon,
"Artispers walle the moment they take fire."
As found leaves are eropt of wither while in their
grime, he preyed upon by indels, in torn away by the
ruler bird; fo smong the children's foce, fome die in
childhood and yooth, and fome in the firright and
gour darashood. But however the leaves may rerain their verdure and their hold through the Spring,
the Sunineer, and a confiderable pair of Austimo, and
many efcapeall the injuries of hilgins, infects and tempells, yee hefor the arrival of winter they will hegin
to put do a flexly bee, even though no find will happen to nip and tarnith them. So is it with mankind,
chould they firriye all the dangers, differing and accedente to which childhood, youth and maphood fir expoled, and continue fasty or ferenty years undouched
to ficknets or exfaulty, and, unbroked by afficilion of
ill field age, would even—nature would decay—the
figuring it fire would wear out, and the vital current
form weater and weater until it coafed to how. Few grow weaker and weaker until it cealed to flow. Few todeed wrethe fellom which are fo mild as an permit-led leaves to grow and Brazish ontil they deepy of themselves without the aid of the frost. And rare are the inflances among men, where persons have the op-portunity of trying how long matter will hold out;
