A DUBLIN ANECDOTE

FEW years ago, a woman who rented a A foug bouge in Dublin, a armed the neighberbood with a firminge flory of a ghoft, dreffed as a female in black robes, that opened the curtains of ber bed, furrounded by an illumination like lightring under some becary burthen, beckened the woman to folioto ber. The perfen baunted, called in two relations to fleep with ber the next hight; but they were also equally frightened with groans and an uncommon noise and left the house next

The occupier of the boule still persisted, that she was not only baunted but threatened by the ghost; and to this she made the most selemi caths, as spell as imprecations, and accordingly took ledgings in a neighbouring fireet.

The flory having gene abroad, bundreds were daily drawn by carolity and the first where the haunied bough was and it becoming the subject of conversation severy where, Mr. Nolan, so well known for his poetical and political abilities, took up a forting bet, that he would suffer himself to be locked up in the bouse one whole night, without the company of any buman being. About nine of lock be went, and was flut up; but for the fake of defence against any improper tractices, he took with him a dog, and a case of loaded pistels, and was not released till six o'clock next morning, when he was found by his companion fast afteep.

The following elegant stanzas will helt show the

fituation of his mind during the time of his vigits. Sufficest to fay, be faw no ghost, though he beard a great deal of noise, and loudly threatened to shoot the first one who should approach bin, whether of this world or of the other. This difcreet ghost defisted, and the people got rid of their fears in that neighbourhood.
