Auch of the immune and most of the glains were broken. The wine was not farred, but the most stiffing their was no fooner difcovered than panished. One high rates in the fast was executed in the place. A bundred other thieves during that day and night, and the morrow, were executed.

What a speciacle was Paris, and especially the place

What a speciacle was Paris, and especially the place of a dion, on the secting of the rein of August Labor and trade were interrupted, the workshop and the counter deferred. Amid apparent disorder, there was at roop mintered harmony, fraternity, feshibility, tengeance, generoity and butbarity!

Berry first war in a mass, 'pet no outrage toumitted in the fireets. But alsa's the citizens were greviously and too often afflicted at the fight of patriots dying or mounded, bourse bome by their combades, and followed by their weeping family. Every eye, every flep was directed to the palace which fent forth volumes of moke. The Carouxel appeared to be a vaft burning furnace. Inorder to enter the palace it was necessary to cross In order to enter the palace it was necessary to crois two of its wings, which were recking in their ember, and to trample either on barning beams or no hodies not yet could. The court of the princes was but an other afpert of the fame picture; it presented the leader of the palace battered from top 60 bottom by the manational cannon, form of which full feemed to threatnational cannon, iomo of water that reemed to intreaten the too long abode of royal vice. Here too the dead
lay firewed. But how deferibe the vettibule, the flair
cafe, the chapel, and the spartment? It was horror not
to be exceeded. Yet even this horror might be endured, by recolleding who had been their inhabitants.
The walls and floors were flained, with blood, covered
with broken weapons, and the limbs of men, mingled
with broken weapons, and the limbs of men, mingled with broken weapons, and the limbs of mee, mingled with tora garments, royal pobes relievel worked in gold with flear-de-lie, furnitute broken, fluttered vafe, hottles diffributed to the metenary executioners of the deliptor, and dead hodies at every flep 1 The palace gates leading to the tertace was obstudied by heaps of dead, shooth naked, and as it fill biting the duff, their hands graffeed in rage to have fallen by the fword of the people.

Every alley of that noble garden, the admiration of foreignests, and the pride of nature and of art, prefeated nothing but more dead and more; frome under the trees, fome extended beneath the flatners, and others trees, fome extended beneath the flators, and other Areas over with graft and the flowers of the garden; and to give the laft touch to this fearful feene, the wood en barracks of the Swifs all on fire, and the flames lightning tacfe who were loading numerous carriages brought to take away the dead from the place de Louis XV. By the fide of this feene of horror far Louis XVI. the author of all these lamentable tragedies, at a well feolenished table in the room of one of the committees feelimithed table in the room of one of the committees of the national affembly, eating and drinking as oftent, In company of his filent and caraged wife; the biting her lips at not having been feconded in dreadful crimes and deplorable guitf.

No part of the palace of the Thuilleries was burt, face

where the cannon druck, and which can be repaired; but the harracks with a furrounded it, and which fool-Botthe barracks which forcounded it, and which food-d is suppostance, were configned, to flames, and are feverled with the ground. It is most likely that it will be configured in future to a fall for the affembly, bu-reads for the factional bosiness, and apartments for the minister and President of the Republic.

THE INDEFENDENT REFLECTOR No. 1.

THE INDESTRUCT REFLECTOR—NO. 5.
Follow Citizens, Mon. Breibers and Fathers,
THE peruliar and extraordinary mode of voting
for Federal Reprefentatives and Elections, adopted
and pointed out by our General Court, is fuch as demands translation and animaderston.—The more
simple the mode had been, the better; the more comsimple the mode had been, the better; the more con-plicated the worfe. It was no very difficult matter to have divided the Common scalls into as many difficilt wither were representatives to be chosen; the Geo-pial Court, had the centils of the Common wealth before them; if a County was too large to chuse one, it might have been divided, if not large enough for two, then annex some formal, proceed in the fame manner. This would have been a natural and simple manner of pro-ceeding, free from embatrassment, every man of fense and honesty would have been contented and pleased with such a mode. Frivalous is the objection that a few yours detached from one county and mattered to another would consider their privileges curraited and those verse tools. For perphase inous of shole very their votes loft. For per perhaps in one of those very teams the man whom they would chase may chance to refule; and it matters not to a wife man whether he re-side in the centre of a County, in the extremes, or in a part of another County amexed ! what we want it a man fit for the bulnefs ; local fit a ston don't influence the choice of an honeft voter. But the feheme pre-fented to us is the oddeft most unnaraly al and most confented to us is the oddeft, noft manuful and most em-tarraffed that could possibly enter the head of a mortal, Yet our reprefentatives fay, that, tho' a long time was spent by the general court in that affair, this was the only one thing they could obtain. But why fo? This locks like is cheme of fone factions Demagoges, who wanted to carry a point, or get into play, but knew that he could not do it by fair and open methods. It refembles or at least bears fone of the leasures, of M. that be could not do it by fair ann open measures. The decided of the country of ment or particular enough and attention the circommittees of zo each; each question was to be decided by a majority of committees, 4 committees was a
majority, and 11 members of each of them would carry
the vorc.—If this feherie be not erackly similar, yet
the plan may be calculated with self-united with self-united that when people have met, and met
grein, and again, and vored finitessly, they will grow

The feveral other matters which you have commu-

The Washington and the second second second

Tours d'On, affigusts and laid them all before the national affembly. Others feized on the traction of the Denagogous may hange materially to the fame place; while emigrant officers have carried off fame place; while emigrant officers have carried off the black and the state of the place; while emigrant officers have carried off the black and the state of the place; while emigrant officers have carried off the black and the state of the place; while emigrant officers have carried off the black and the state of the place; while emigrant officers have carried of the place; while emigrant officers have carried off the place; while emigrant officers have carried of the place; while emigrant officers and the place of the place o inclination to find furthwith publick men or measures; bot it is forgettimed necessary. I have waited in expectation to fee this mêter fee in a just light, and the absurdity of it exposed by some abserver. It is a I have for feen it—I would will people to view it well—it is a scheme so instricts as to good explanation, and too absurd to be reduced to practice, without the unnost degree of parience, not it there may tolerable prospect of an happy liftee.—The I detret machivelian policy? I comfort royfelf with expectation of being verified an obtervation, made many years ago, by a wife man, "he that diggeth a pit shall fall therein, and he that roleth a stone, it shall return upon him."

## Congress of the United States.

Monphy, Nov. 12.
Mr. Ath from North-Camlina appeared and took his

A communication was received from the Treasury Accommunication was received trum the Treatmy department made in purfusion of a refolation of the Hoofe, being a flatement of the receipts and expenditures from the first ethiblishment of the Treatmy department under the new confliction to the end of

Partners under the part that the total amount of expenditures during that period to Dolls 3,797, 435, 68 the total amount of money received 4, 771,342, 43; leaving a ballance of 973,305; 65 in the Treatory at the ex-

pleation of the year 1701.

The memorial of James Warrington was read a fecond time and referred to Melirs. Giles: Livermote

and Einsley.

The House then proceeded to the Prefident's agree-able to appointment, with their answer to the Prefi-dent's address. ent's address.

Immediately after the return the galleries were clear-

Answer of the Hinse of Representatives wither resident's Address to both tiersen, at the opening of the Sossian.

SIR,
The House of Representatives who always feel fa-

tisfaction in meeting you, are much concerned that the occasion for mutual felicitation, afforded by the circumfiances favourable to the National Property, circumfiances favourable to the National Profective, should be abated by the continuance of the holis private it of many of the Indian tribes; and particularly, that the resistance differs of effecting a general particularly, that the resistance differs of effecting a general particularly, that the resistance differs of effecting a general particularly, that the resistance of their perfecting enmity, and the harbarous facrifice of citizens who, as the messagers of peace, were defining themselves by their zeal for the public fervice. In our deliberations on this important department of our affairs, we shall be disposed to putthe every mentione that may be distance by the financined define, on one hand, of cultivating peace, and manifesting, by every practicable regulation, our benevolent regard for the welfare of the femignated people; and by the daty we fiel on the other, to provide effectively for the factory and protection of our fission citizen.

While we regret, we learn, that symptoms of oppo-fition to the law impoing duties on spirits didilled within the United States, have manifelled themselves, we reflect with confolation, that they are confined to a fmall porting of our fellow citzens. It is not merely effected to the prefervation of the city of the cit ly effential to the preferration of true liberty, the government should be always ready to listen to the government should be always ready to listen to the representations of confituents, and to accommodate its measures to the featment and withes of every part of them, as far as will,confist with the good of the whole, than its, they the just ambority of the law should be fleadfully maintained.

Under this impression, every department of the government, and all good citizens, must approve the measures you have the confirmed to except this area of contrasts with the proposed on have formed to except this area of contrasts with the

measures you have taken, and toe purpose you have formed to execute this part of pour truth, with firmuch and energy; and beafured, Sir, of every constitutional and and energy; and beafured, Sir, of every constitutional and and consequent on which may become requisite on our part. And, we hope, that while the progress of contentment under the law in quellion, is as obtions as it is rational, no particular part of the community may be permitted to withdraw from the general burthess of the country, by a cound as irre-concilgable to national judice, as it is inconfiftent with

public decempy.

The productive flate of the public revenue, and the confirmation of the credit of the United States abroad, commands of the credit of the United States stread, evinced by the loans at Answerp and Amferdam, are communications the ware gratifying, as they enforce the obligation to enter on triplematic and effectual arrangement for difcharging the public debt, as the conditions of it will permit: and we take pleafore in the opportunity to affine you, of our entire concurrence in the opinion, that to measure can be more definable,

oppostunity to affire you, of our entire concurrence in the opinion, that no measure can be more defigable, whether viewed with an eye to the urgent with of the community, or the intrinsic importance of promoting fo happy a change is our fination.

The adoption of a conditation for the flate of Kentucky, is an event, in which we join, in all the Latifaction you have experified. It may be confidered as particularly intercled, (ince, befides the immediate benefit refulting from it, is another atfinitions demonstration of the latifity and function with 'which an engiated people is capable of providing, by free and deliberate plant of government, for their own fafety and happiness.

The President's Reply to the aufwer from the Hage

The Prijodini's Repaysing aspear from the Honey Repayment.

Gentlemen, the profit of the transfer of the measure of the proposition you manifell of the measure of the proposition which have formed, to make the proposition to the transfer of the transfer of the proposition with the reflect which is detect the law, and the stanset which you, at the fame time, give me of every out rutional aid and co-operation, that may become a confidence of your part.

quifte on your part.

[This is a new proof of that enlightened formed for the effablishment and confirmation of public edge, which embracing a zealous regard for the first part of the first pa ciple of true interty, has gaused the deliberation of the Hoofe of Reprefentatives;—a perfeverance in which can alone fectore under the divine bleffing, the many permanent felicity of our common country.

and permanent felicity of our common county,

LONGWY, Angelt 5.

Firing at the King of Praffix.

His Praffixa Majethy adaling by a village acu to place, efcorted by forme drageous, the inhabitum in nifelined a great juy-on-fering him, but all on a field the found of three or four markets were beind, ask the found of three or four markets were beind, ask that the first profession of the fell. His finite, fortiesse feeing this treason, fell on to missione the people and delitry shelf bondes; but the King, recovering his file called out to flop their vengeage, Enjing, I am wounded, I pare the human blood. However, the world was the file of the decire extractions away immediately, undering thiny thousand moved has troops to march towards the frontiers of Franch

LONDON, Sept. 21.

Extraïs of a letter from Dublin, dated Sept. 15.

"It is faid that in the course of last week a subcinition, amounting to three millions sherling, was conjudend among the Roman Cathabite gentlemen and mechanis of Ireland, for the purpose of purchasing lash. in North America,
"The object of this purchase is said to be two fifth

"The object of this purchase is faid to be twa-fall, farth. That thefe lands may ferre as an alplanta skind those people may retire, should they fail in obtained what they now feem to consider as effential to the being of Freemen—the elective franchise.

The second object is, 'That they may be a forme of profit, should their fination in their native county by made forth as to induce them to remain in it.

"This measure of the Catholics, should it be canded into recention, must very derably incept the misses.

"This measure of the Cathoucs, inoma is to con-ed into execution, milt very deeply interest the mile-al welfare.—Nothing has occurred in Irish policing within the prefent century, more worthy the attacks of the politician and flatersman."

We flated in our last that the combined assist

We flated in our last that the combined sumic scamped before Thisworlde, had taken the height of M. Micked, near that place, after an orthinesselfic in which they loft five hundred men. It now superar, that the Prince of Hobeniee was killed in the contell. He was an experienced General, and the Commander in chief of one of the three grey many, defined to act against France.

It is not certainly known, that the Doke of Bretwick, has yet left Verlane, but a letter has arried it Paris from the camp of M. Galbot, announcing, the on Wednelday afternoon, at three o'clock a load estimated was heard on the fide' of Grandpre, M.D. mourier's poft, from which it is probable, that the Parisans had made an attempt to pass that way. Theorier, who brought this letter, set out before any they was known concerning the event of the action. The report, in town yetherday, and with perfect was the content of the action.

was known concerning the event of the action. The report, in town yellerday, and with perfess who have the bell information here, was, that the Profession have been repulled with loft.

M. Dumourier's army it effimated in Pariest 4400 mee, and M. Kelerman was daily especial to just, when the united army would amount to an handle thou fared men. M. Lockner, it was thought you though the profession men. M. Lockner, it was thought you hourly have firsty thousand men at Chalons. Manney

shortly have fixty thoughout men at Chalents. Malien has fifteen thoughout men under him at Wilfemburg. The firstagem of General Wimpein, the consider of Thionville, is much praifed. On the 18th and the made a prodigious firein the market part the flames of which were miliaken by the cuesty, far fire among the houfer, kindletthy their boaths. The immediately, made an affault. A describance from the partition took them in flant, while the citons of the place played upon their front, and they were preferrly muted with the loss of three bonderd men, but dead on the fpot. Upon the whole, Throwille has ready coff the enemy a thousand men, before the company at housand men, before interesting of the enemy a thousand men, before interesting of the enemy a thousand men, before interesting of the enemy a thousand men, before interesting of the company and bombi funk in the Malient Company of the company and bombi funk in the Malient Company of the company and bombi funk in the Malient Company of the company and bombi funk in the Malient Company of the company and bombi funk in the Malient Company of the company and bombi funk in the Malient Company of the company and bombi funk in the Malient Company of the company and bombi funk in the Malient Company of the company and bombi funk in the Malient Company of the company and bombi funk in the Malient Company of the company o

mente quantity of cannon and bombs funk in the second feelle.

M. Dumourier has taken policifion of a camp, and doned with much precipitation, by a large tool of Pruffian; and has published an address to the dominances of Ardennes, and the Murae, inviting the law means of Ardennes, and the Murae, inviting the law. ments of Ardennes, and the Murne, inviting the binner is cover all the reads and open fields with tentimber; and has appointed places in the forth of Argonne and Mayjarie, to which they are to rester upon a fignal from him to prey upon the flush of the recently. All the roads are now, indeed, nearly sorted with trees, to that the functionity of the Present

P A R I S, September 30.

Operation of the Amira.

On Thurlday morning the 20th, M. Severa anaccused to the National Affembly, that he had receive
the dilipseth from M. Darmounter, thating, that the feteral deschiments expected, had joined his army; that
the control of the property of the control of t real deschanest expected, had joined his army; that he was, at the moment of uriting, equal in foresto the enemy. "Dathe had under his emmand, you on men is, one of which were cavelry. He tays, that the whole many had demanded the positionared of the manage's; that he had deprived them of their uniforms; he downs not have the area one yie has, any lot to the enemy, but that the late executions he has made will keep the rell in their days. That his army now is ardent to engage; and he concludes, "what may I hope to do now, when I have been able to refin the enemy with inferior forces."

of the French certifiers in the department of thalow or Rhine, is reduced to a mere nothing.

The Antrians regarded only a few munics in the

village of Berth. The pealints who favoured that in-

... DUBLIN, Sept. 28.

By a letter received yelterday from Abbeville, from a gendeman of character and fortune, by his kiniman here, a person of versity and diffinition, we learn bet, a person of vertacity and difficultion, we learn that a column of 100,000 actional recopy, with ferent rains of artillery, had raffed the neighbourhood of that reprior on its way to the frontiers from the South Well-Departments of France and that two other columnational person of the south that two other columnations of the south that two other columnations of the south that two other columnations of the south that the water and the second of the south that the water adds are inspired with the finare calmost faller design to define the invalid granter, from which this intelligence comes, that we exame doubt of its authenticity.

PETERSBURGH, November 8.

FETERSBURCH, November 8.

Entending the Letter from Libra, to a gentlemen in this from an unappetited alteration in one market, we thank it proper to advise you of the prospective have furthe lates of wheat and Indian com.

Our crops here have transfer out fat below our expectation, and the greatest gart of the foreign grain in our wareholders is in a pertiable simulation; and upon an advinary calculation, there is not provision in this cived wood wrate for the common confugnation for in ordinary calculation, ductor is not provinced in this city of good grain for the columns confumption for more than three months at the most." Extract of another letter from Lithon, of the fame date.

Extract of another letter from Lithon, of the fune date.

"The greater part of the wheat at prefent in our flores is damaged, and the harreft of the country has been but judificent—the fame having been the cafe in Spin, there will be a condictable demand there for foreign wheat; and Italy which died to finnish a great dealto Spin and Portugal, will this year fupply little examined, the caponitions of Sicily Ming probabilited; patient of Emple, the prices there not being very inviting, & many people deter red from venturing on account of the heavy lofers followed from the path."

On Friday the feenod inti, was executed in Hillbomesh, Grance country. Morth Carolinia, Samel Polit.

On Friday the fectod inth was executed in Hillio-mugh, Grange county, North-Carolina, Samuel-Ful-ler, of Grazville county, for the borrid and unnatural mander of his own fon. Mr. Fuller, till within a few year pail, has conducted hisnelf as a good and refeet, able citizen, has raifed a fraully in good repute, and by his indelty and frugality acquired a condetrable pto-perty. Unfortunately for mankind their pafficis, in ione negarded moments, get the better of radion and even of human feeling: in the prefent cafe we have a fithing inflance. A man near three foors years of ago unworthilly rakes to his bed an abandoned woman; and teps her in defiasee of a faithful wife and a number of children who are pelegge of his marriage two. The mhappy one who fell a richim to his rage, had fre-questly requested his father to drive this inflamous we mhappy one who fell a richim to his rage, had fre-questly requested his fasher to drive this infia mona wo-am from his heate, who defitored the quiet of all the landly. On the morotog of the fatal catalirophe, this fowerent with a refolution to drive her off; when high words enfaced, and foon after a gun was discharg-ed by the father at his fon, loaded with botch-flort, fertal of which perforted his head and body, which killed him inflantly.

On the 26th olitino, was only the selection of nearly feventy years of age, of a respect, able character and fortune, to a young lady of 19—both of Charlotte County.
