Mr. Fox again declared his love for the government

Mr. Borke entered into the confideration of the con dust purioed by the Lord Mayor, which he much ap-planded, and thence took occusion to compliment the city of London, for its old and unfasten loyalty. He then made fome objevations on the Speech of Mr. For, who he fooke of in the highest terms of efteen, and whose language he acknowledged, bore the apperanece of fubordination. He proteined numeri at-tached to no party; but came there folely to defend his country in the prefent alarming criffs. Mr. Fox, in confiquence of an intimation to withdraw his motion, insisted on a division taking place, as unanimity would be a pernicious measure.

I flatter myfelf you will not neglect yourduty to fo-city and to yourfelves, but will divel yourfelves of prejudice, and appear on the faid first day of APRIL, prejudice, and appear on the late ner day of Arkita, armed with your socs to fupport fuch of the candidates as (all things confidered) that happear most likely inpport your true interest, and perpetuate freedor

He is now deriff of the county of Worceffer: a locrative office, & perhapshe would not wift to change his fituation, and if he would, the expediency of electing him a member of Congress is doubted, for he is an executive officer, sod it is contrary to good policy to blend the legif-htise and the executive together—but you are the
