Children! You ak for a paliport to go to New York; a paliport is ofelds in peace; it appears therefore, that you expect we shall be at war with the States be-

pect we shall be at war with the States be-fore you return; you shall have a passport; that whether peace or war, you shall be well received by the king's warriors. Children! You talk of selling your lands to the fare of New York; I have told you there is no line drawn between them and us. I shall acknowledge no lands to be theirs, which have been encroached on by them, fince the year 1982 ; they have his kea the peace, and as they have not kept it on their part, it dock not bind on ours. Children! They have defroyed their

right of pre-emption, therefore, all their approaches towards us fince that time, and approaches rowards as fince that time, and all the parchafes made by them, I confider at infringements on the king's rights, and when a line is drawn between us, be it peace, or war, they mult lofe all their improxements and houles on our fide afte, the people mult all be gone, who do not obtain leave to become the king's fabjects—when belongs to the Indians, will of course be unfirmed and fecured to them.
