Mr. FAUCHET'S CORRESPONDENCE Philadelphia, the 7th Germinal, Second year of the Republick, One and indivisible.

Th. Fauchet, Minifer Plenipotentiary of the Republich, to Mr. Randelph, Secretary of

the United States.

A Syou are about to lay before the Pref.

A ident a flatement of the claims relative to the vexition and spoliations which your commerce has experienced, you will doubtlefs receive with pleafure fome colair iffements on the complaints well or ill founded, which have been brought against privateers & two thips of war, of the French Republick. You will not observe with is pleafure, in my reply, that the National Convention has already done justice to fome of the demands of the merchants of the Joited States, and are now occupied in

latisfying fome others.

In the lift of complaints against the Republick of France, the complaints orgether the French privateers do not lefs harass

your commerce, than those of the English.

To this affertion lanswer, by two obfervations, which I submit to your imparrislity.

1. It is now fome time fince any more

privateers have failed out of the ports of have been armed in our islands is not to be compared with those pirates which the islands of Bermuda alone fend forth,

2. If any of your membants have foreed any injury by the conduct of our priva-teers (a thing which would be contrary to the intention, and express orders of the Re-spoblick) they may, with confidence, ad-drefs themselves to the French government, which will never refuse justice to those

whose etains thall be legal.

I feel a pleasure in thinking and saying I feel a pleature in thinking and stying to you, that it is not the fault of the French if commercial property, even of enemy nations, has not been respected smidth the bortons of war. This proposition of natoral right, was made by one of our Legislative assembles to the British, who rejected

adly. It is impated to two of our thios of war, that they have committed enormities on your veffels. Should the fafts be prov-ed, the captains of those two veffels are as culpable towards France, as they are to-wards the United States, for having acted restrict for the Windlord Albert, who had had in a moment contrary to, the infinitions of long on board to infore the fire taking, they have received . The government, up.

tion difavors their conduct, and repairs the groups which they have committed.

3d. Certain acts of oppression in the
Courts of Adm *alty are complained of.

The opprefire acts of the Admiralty Charts, need no longer be complained of ince on the claims of merchants of the United Stares, the Convention, on the Bil November last, paffed a decree giving to be executive consent, the power of judge the validity of invalidity of prizes. It is as follows :

The National Convention having heard the report of the Committee of Publick Safety, decrees, that all disputes, arising or which may arise on the validity or invalidwhich may attic on the validity of invalid-ity of prizes made by privateers, shall be decided by way of administration, by the Provifory Executive Council. The decree of the 24th February {0.5.} attributing the judgment of these matters to the Com-mercial Tribunals is repealed. Cont accessible in the quisipal.

The 4th allegation would require a long discoffion which I shall not undersate here. I shallouly indulge myself in this single resolution, that the burrible spitcher of violating the law of nations, in order to starte a constraint. people who cannot be conquered by force of arms, has not been invented by France. of arms, has not been invented by France, and that it would be as unjoint as barbaroos to require that the fhould allow provisions to pais to her commiss, while those defined for her, are taken by them.

As to the embargo on American reliefs, imperious circumfiances, the falvation of

the country, have imposed that measure, but the interests of no one will be injured. And to convince you of this, I recite an ex-traft of a letter which I have just received from citizen Tallien Representative of the

people, at Bourdenox.
It is possible, be writes me, "That former it is pomine, be writes me, "That force maleurdent perfoat may make ole of this present (the embergo)to diffurb the harmony exiting between the Americans and og might reprefent this meafure as a visition of treaties between the two nations? the interests of individuals may for a ment can lethe general interest to disappear. It is then to you, brave Republican, and the ment caule the general interest to disppear, it is then to you, brave Republicae, and the tree friend of your country, that we mist configurate care of defending it to Congress, should the measure that per there to be ea-lowing the country of the country of the ca-lominated. Say to our brethree, that it is the intention of the committee of publics the intension of the committee of public fefery, and the aftest centre of the Brefeth government, to indemnify all the owners or captains, who by the operation of the conbargo have been obliged to remain a length of time in France; and the propositions which from will be made to, them in the manner of the propositions. name of the committee will be advanta enus to both astions. In thorr, my friend, ife every mezna of a frank Republican ne gociator to convince our brethren the A mericans, that when occupied concerning the aggregate interests of the nation, we do not forget their, and they may be affored that they will always find in se faithful o ferrers of the treaties made with nations

worthy of linerty."

The 5th and laft allegation is, that a contract, the payment of which having been flipulated in cash, has been made in Enguate : I am quacquainted with the faft. but I am affured, that it is the intention of the National Convention not to permit any injustice, and to repair foch as shall have en committed.

I conclude my reflections, not doubting, fir, but that the will be received with the fame interest as would be excited in France by the observation of our allies, to who always with new pleafage renew the afforance of the most perfect frateroity and
