Personally I have gained nothing.—I
was among the field Marshale.—I was fore of being Lieut. Gen. of having a red rib and being Lieux. Gen, of having a red rib hand-and-arcommand. I had no recollives (Scol. flerling) a year. That was enough for me. But, I fav the flatten f Frence dif-homomered withiner, mined within. Adel-tiny, of which Ministers be my memo-rials had been long forewarned! The year 1789 was glorious by the Re-volution! Where I was, ir altogether was ra-tional and mild: for, without treaching

then Revolutions will be no more!

tional and mild; for, without trenchine unon liberty, every excels of liberty into li centioninels was punished by law, even unti-

On the Suppression of the Military Commandants I went to Paris. There I made the Revolution my fludy. The Princes, by renning away had hurt the King's crufe. The Veto I far would be n'elefs, & might be fetal. Though nor a legislator, I codear-oured to undo it, as fast as I could.

In 1791, I had the command, from Mentz

In 1791, that the command, I rom Mante to Baurdaux. The war, a wro feeligion, then raged in the Feathe. The religionity ware burning all before them. I faved early thing I quieted all, till behraary 1792, when I was called to Parin, and Anned Lieut. Gen. and Minister for foreign affects.

Wighthe warthey reproach me, it was inequality. It had existed long before. ing was! The king was for it two! The

hly, has he corrected it; the corrections are in his own hand writing, and his own

At three mouths end, confounded by the factions which raged, and failing of the King in council to fandion two degrees, I wished to retire. Retirement was refused, I changed the administration by the King's order, and I took the department of war.
But finding that the court had deceived
me, I would not be the Minister of intrigoe:

feretold to Louis and his wife erety evil which awaited then, and in three days I re-figned. The ragabond fugitives (Lesem-igner) have faid that I was mened out; it is a lie. I refigned my place though Low-15 was argent that it might be otherwise; though for two days together he opposed my relignation; and though when Ideparted, he mingled his tears with mine.

The war has been fplendidly successful to the French. If the French had shown

equal wifdom and virtue, peace would have returned long ago; Louis would have lived; there had been no anarchy; ber France had been glorious and happy in he

Such is the rapid firstch of my exidence; a feetch which may fuffice, if I cannot fin-ish the work and give it to the public. A-dical my worthy friend. This is an imporant letter ; and as fuch it foothes me ; here it is, I wait with inquiettede, the withel of the Emperor, and decision of my fate ! my charafter shall affert isfelf, and instead of werkening, fhall firengthen by mifnap. fhall be, at all times, myfelf.

ex efficio, made them prifoners, and carri-ed them to the two neared magistrates; but neither of them having taken the oath of office, they conducted them to Burlington, where the nearest afting magistrate relided, diffant about forty make from the place From the New-York Daily Gazette. To the Republican Chizzen of the U.States.

MR. HAMMOND, the British ambulled of the 22d of they were apprehended at, where they were regularly tried for an offence committed against a flarete of that flate, flood five pounds, with code of foir, and ordered May laft, to Mr. Randolph, while en-deavoring to juffify Lord Dorcheffer's reto be committed until the judgment thould ply to the Indians, after having quetra a nating therefrom, proceeds thus.—"From the counter of this whole perfuse it is made the counter of this whole perfuse it is made their proceeding of the thord Dortheller was perfused; their proceeding the thord Dortheller was perfused; the thord Dortheller was perfused; the think the aggregation which might executely define the profession of the laws lead to a flate of hoffility, bad proceeded from the United States; and to far as the understale than 4 the magniture who tried there are not into their profession, of the ply to the Indians, after having queted a be complied with-but fecusity being tenthem, was put into their post-slion, of the whole circumbances which appeared on Lordflip principally elluded, was is I am convinced, that that perfusion was not ill founded: for, notwithflanding the their examination.

The trivelity of the three falls, as above flated, being to extremely glaring, as to caste you, my fellow-citizens, to be doubtpolitive afforances which I received from your predecessor of the 9th of July, 1792, in answer to my letter of the 4th of the Copie you, my resulwect zons, to be doubt-ind, perhaps, as to unch being fubilisationly true. I eftern it necessiry bere to assure you, that are information is strongly member in this research center, who had an opportunity of persulus the complaints as they were filed in the office of the fector fame month, of the descripination of the is me month, of the deformantion of the general government is difference any ten-prels the entruchments which nor mare and individuals of Vernment and commit-ted as the territory coupled by his Majghy', garriford. I after, with conditions that nor only those carranchments in versues here nor only those carranchments in versues here. in any meafors represed, has that seem

in any recently in that quarter, and in terministic in that quarter, and in terministic in the terministic i

quire any corroboration, I would remark, that, though the space of fifty days elipted between my letter of the roth of March,

persects my letter or the rom. of Mirch, 1794, spon this fubject, and your arteer of the 29th of April. 1794, you did not attempt to deay the faths which I then fitted, and which I now explicitly report.

Though from may deem it exceedingly importance and investment in sec.

improper, and impertunent, in any indi-vidual to intermeddle in a hufinefe, in-

volving in its confequences matter of fach immends magnitude as this does, I, accer-thelefs, and determined to rifque the pub-

lie esplare, convinced, that it is not only

menity, but a duty politively intumbent on him, to prevent, as far as in his power.

the public mind from being milled, by an artful misstatement of facts, in a winton af-ferrion of absolute fallehoods.

I do not mean to influence, that Mr. Ham mond has committed, intentimally either the one or the other of these impro-

prieties ; he may, perhaps, have been in

poled poon by those from whom he tecein

ed that intelligence in which he is posi-

ed that intelligence in which he is posi-tively confides.

From the above quotation it appears,
hat Loyd Darcheler's expedition of an approach war, in the spirite M. Ham most, arofe principally from the light in which his Lordhip vice-ed the condict of

the flate of Vermoot, and the inhabitants thereof, which had been such, asto justify, his Lordship in declaring that a war would

probably fam, take place between Griat-Britain and the United States.

As Mr. Hammond has not, in the let-ter above alluded to, particularized the

encreachments" he fo heavily complains

of linal texe the theory of doing it terbin;

ift. His Excellency the Governor of
Vermont, in May, 1792, not browne be
fear of the government of Great Britain beforebit eyes, but indigated by pure, part-

otic, and conflitutional motives, express

ordered the mapilirates reliding town of Allburgh (the whole of

a right inherent in each member of the en-

tary of frare.

Before I go further, let me here recepitulate their three grand offences, or, to use Mt. Hammond's diplomatic terms, "enchoachments."

that a certain Patrick Contoy, refidir within the aforefaid town of Allburgh, ba

next tuperese count, which was to it with-in that county.

A diffute arole, either before the fer-viceof this wift, or about fomething rela-tive thereto, and dependant thereon; the configurace of which was, that the deputy-theriff, employed in this business, was taken

by force, and fent a prifoner to Montreal

from where he was not only ordered to be releafed by General Clarke, who was

be related by Goneral Clarks, who was then at the head of the government of Canada, as food as that gradienan was in-formed of the meanar kern, and the confe for which, he was taken, but the General wrote to the Governor of Vermont a very

polite letter on the fathjeft.

December lait, made an attempt to entrap

from a town in Vermont, called Sheldon and, in the execution of their attempt

able inhabitants.

A conflable, being informed of this, wen

ned to mal treat fame of the peace

ift. A town-meeting was regularly calling in Allburgh, a town, admitted to be in Vermont, though bordering on the Canada line.

nada ince.

2d. The attorney-general ifficed a writ,
ordering a perfin who had couldner profes
conforty, exercited the office of justice of
the peace in that town, to appear at the
next fupreme court, to be held within the

occurry, and they can't when end within the county, and they can't why an informa-tion should not be filed against him, 33. Four men, who (it appeared after, wards) were Brissin folders, having com-mitted an illegal aft, within the town of Sheldon, in the fame flate, were apprehended by a conflable, condition to a magiftrate, by him legally tried, and conde

to pay a fine of five pounds, with cofts of fuit.

But Mr. Hammond has afferted, that thefe " encroachments" were committed on the territory accupied by bis Majeffe's

garrijon.

For the confirmation, or refutation of For the confirmation, or refutation of this silicition, it will be proper to due the geographical fination of the garrifons he allades to, as they refred the towens in which the fuppoled transcribents have been made; nor refute it amilis to go a little fatther, and exhibit their firmation with refpect to the line, which, by the trany of peace, thirdes thest linical States from the province of Capather, giving, at the fame time, a thort thresh of the great refpectability of these garrifors, both as to firedge had cumbers of men.

respectability of their garritors, both as to firehein and numbers of men.

I thall now speak, not from information, but from my own actual knowledge,

There are only two garritors. The principal one is at Point and Pere, in the flate of New Tark, more than there site thom any part of the town of Althurgh, and forever, therefore he than the and separated therefrom by the waters of the Lake Champlaine; it confilts of a flone-hoose, and a small harrack, both of which are within a common picket or two, made incapable to withfland the finallest cannon finat; to this garriton is attached ONE field piece, and it has generally been com-

town of Albergh (the whole of which town of Albergh (the whole of which with mended by a febaltern. It is not seen disjusted, lies within the flats. The other garrifon, the only one the of Venuous) to call a town metting. British ever had, fince the peace matching which onder they complied with, and look the flats of Venuous, is at a place on the mar-

gally surfued these perpotes for which gie of the fame lake, called Denttown meetings are generally furninosed.

2d. In the fame year and month, the attorney-general of this flare, underflanding, Point, not Jefs than fixtern mile Canada line, 23 the lake goes, and that of ten miles to the feethward of them part thereof, and muft therefore, be a miles from the centre of the tory for fome time, exercised therein, the of-fice of a justice of the peace, without any legal committion for that purpole, illued a writ, ordering him to appear before the next supreme court, which was to fit with-Allbaroh.

This garrison, fince the prace, bal under the command of a truly tryel with fometimes fix, fometimes fix and is a finall shockaded but, with

fingle piece of cannon.

One of the faithful commanding of of this very important garrifon defens with all his men, leaving on the dur-the fort the following infeription, an pole to let." From the facts thus fisted, aries

following question—
How must a garrifon he firezed, ribw mun a gartion in attack, of respect to a certain territory, to continue in a technical point of view, in "con-

of that territory?

I believe that acutral nations, in da I Defire that neutral nation, in an ign their right of protection of the tot of brilligerest powers, claim only similer as the protecting bounds, and, in an en judge from the practice of the kind for the company of t thefe Garrifons mithen our territory the hondred yards, that being the his importing garifons of Fort Gang, he coally garifon and garifon garifon and the said of the forth garifon which have or similar in preferit dispute.

But allowing that they are smalled in the distance of even the

But allowing that they are bould in the diffunce of even the mile, up part this refractory town of Allongs is sim-the occupancy of either of this gening, and the place where the lost Boile d

and the place where the too Holid Academs were apprehended, is a leafurer where the courselve make a filling from the Corpolar make a filling from the Corpolar make the course of the same whether the processors of free the rain determined provenances of first the rain determined provenances of first the rain determined in infringe upon the my of nearch by retaining their gardina, the undownedly intended that they findful deemed to "occupy" all the termine him be really his idea, and I cause an erive any other no which he can full first the really his idea, and I cause an erive any other no which he can full first. ceive any other on which he can foth. his claim of "occupancy," it will falls by analogy, that they must have hid a fame in aning, with respect to the Webs girritons, which they have withful for use and as forme of these garriton by the fouthward of the City of Albay, ceght uor to be furnrifed at feeing Hammond enveigh against the illed encroachments, of the legislators of the state for daring to have coacted him in only within the territory, but even forth

rilons.

His mode of reafoning, in infliction of Governor Simcos's (upperlet incesses of Governor Simcos's (upperlet incesses of the inputs of the Miseris," is a printy good past of the ingeneity of his imagication is points of this nature.

Should the Ambullador even milest further than the further than t

of fuch language, it would not be farm ing to fee a juftificatory plea in his farm; a about ten days ago an anonymous with came forward in the Minerva, and dedu ed (fpeaking of the British and Venueses) "Both parties feem to be wrong. The British for claiming the Joseph and Joseph The Vermonters for claiming the foil."

Not being as yet hired, or even ladied to vindicate the British government, is her attacks against this country, I after, that his last position is absolutely folleast groundless, and dare him to product ou groundlefs, and dare him to produce of even the emblem of a legal title to aif, part of the foil, which he has the efforts ry to declare the Vermonters are worst

claiming.

A wilful departure from truth, ever its gord cause, is extremely reprehensible that, when this disposition is exercised by a perfon, in favour of a wantonly predatory my, and against his own county, the crime certainly merits, and when fell-revealed, must undoubtedly meet with the

utmost public contempt.

If he has been unthinkingly led into it error by misinformation or otherwise, is has but to acknowledge it, to meet with immediate forgivenels from a general public: On the other hand, if he full sizes to vindicate the British, and visity the Vermonters, I again call on him for one cause in support of the claim to the defense to usure for them.

This short statement would have her

given fome time before, had I not been daily expectations of feeing an efficient from the governor of Vermont: what is prevented this I cannot fay, but an estimate that the facts fraud very nearly as I have represented them, and the propriety of a intermedilling at all, I principally founds.

After time observations electiviting his chiefur property is the According to a scomment and its only care for mediate in path through this town, and made as in what property is the According to a scomment and its only care for procest:

I congruntate with allage heave the fraction of crush, whether is railies.

Happilly 6 r 12 is pulled through a traffic through whether when or rain till after it had been there with a right in more; that I are not the most inches in such cast and toughed when the fraction of the property he politifies, and I think his training the handle member (Mr. Lakanros) on the property he politifies, and I think his training the handle member (Mr. Lakanros) on the property he politifies, and I think his training the handle member (Mr. Lakanros) on the property he politifies, and I think his training the more; that I are the property he politifies as he is good eight distanced by the property he politifies in the fraction of the property has a right in more; that I are the property has a right in more; that I are the property has a right in more; that I are the property has a right in more; that I are the property has a right in more; that I are the property has a right in more; that I are the property has property of the Tamarat tree, which had been taken up by its roots, and was carried along in the pufition it grew—functimen it would fettle all its vaparies.

We have heard of this Tornado from the Westward as far as a few miles beyond Hadfon's river. It did much damage in Paneblestie.

A L B A N Y, July 14.

IT is with the keeneft fympathy and geief
we record the following disfater:—On
Standay morning hift, about 2 o'clock,
this city was again alarmed by the cry of
fire, which proved mod unformantly to
be Caldwell's nohic factory of Tolacco,

Snuff, Chocolate, Mettatil, &c. &c. fitu ared about one mile north of this city, near the feat of Stephen Van Renfellaer, Efq. consisting were renewed after in gathers and the constraint of the huildings (eight in number) was wrap'd in flames—the enormous height of which, ad-drd to the awful fillipefs of the night—the lowring aspect of the ficy-the peco of firmation, being a deep vale, covered by lofty bills and thick woods—and the inlotty fulls and these, woods—and the in-terrupted self-clion of light upon the tups of the trees—altogether formed a feene, the horror and fublimity of which is almost bedropped flick shout them; one tireck a lord and isolating of which is almost becroft Mr. C. and his blick for, wounded from the former in his back, and heat the head of the latter two inches into the grand—
were foregi, to the diffugerable necessity of thange the diffugerable necessity of the districtions of the definevive. The dualing done to the grain, it is aid, at the most curious as well as most extensive works of the kind per haps in the world, in which strangers, who have vifited this city, fince their ellablith ment, generally agree. The loss to a wor-thy & enterprizing individual is computed at Fifteen Thoufand Pounds, on, a moderate ar i free a comman toward on a medical coloration—and it may also be considered as a heavy public lofs, from the number of people it employed, and the keeping of large forms of money within the sphere of out own circulation.
