EXIRACT
From the REPORT of the STATE
COMMISSIONERS,

dated at Pittiburgh, the zzd Augul, 1794-WE atrived at this borough on Son-day, and at the inn where we alight-ed, met with the three commissioners ap-pointed by the Prefident of the United States. On the mad we had frequent converfations with individuals of refrecta-ble characters, concerning the business affigured us, and met with discouragement

mittees from every to making (excepting four) in the foor weffern counties of this flate, and from the neighbourhood of a fmall village called Berlin, in the county imil village called Bettin, in the county of Bedford, being to the wellward of the Alleghany mountain, and allo from part of the county of Ohio, in the flate of Virginia, at Patkinfon's ferry, on the 14th inflant, where ferreil refolations were paffed, a copy of which had been raken. and by the commissioners of the United States, transmitted to the Prefident, ber learned the contents from fome of the conwention, whom we met on the road before we reached Greenfburgh, and fince we have been here have been informed by the commissioners of the United States, from memory, that the account we had received was accurate. The refolves alloded to, have been printed here this day, which is the first time we have feen them

On Monday we endeavoured to afcer-tain the facts that led immediately to the riots in this county on the 16th and 17th of 1aft month at General Neville's efface, and the refult is to follows : The marshal for the district of Pennsylvania had procefs to ferve upon divers persons relidio and bad executed them all (above thirty) thout moleflation or difficulty, excepting one which was against a Mr. Shaw. He or fome other perfun, went to the place where Dr. Beard, the brigade inforctor for Washington county, was hearing appeals made by some of the militia of a battalion who had been called upon for a proportion of the quota of this flate, of the eigh thousand men, to be in readiness agreeably to an aft of Congress. There were up-wards of fifty there with their fire-arms, to whom it was related that the federal to whom it was related, that the lederal Sherill (as they filled the marshal) had been ferving write in Alleghany county, and carrying people to Pmladelphis for not complying with the excile Isws, and that he was at General Neville's house. It was then in the night of the 1 th of the that the large was the first was found. She is allegale, its between thirty and forty flew inflanily to their arms, and marched towards Mr. Ne-ville's above twelve miles diffant, where they appeared early next morning. Your Excellency has already heard the tragical

Ir thould be added, that the delinguents against whom the marshal had process, told him they would enter their stills and pay him the excife, together with the coffs o fuit. Major Lenex applieded their pru-dent conduct, and told them, that though he had not authority to comply with their withes, yet, if they would enter their fills with the inspector, and procure his certifi-cate and fend it to Philadelphia, upon pay-ment of the money due with the coffs, he was perforded all further profecution

If this detail is true, it is evident the outrages committed at Mr. Neville's were not owing to deliberate preconcerted meaf-ures, but originated in an unbridled guft of puffion, artfully raifed among young men, who may have been at the time too much heated with flrong drink. outrages committed at Mr. Neville's were

OnMonday evening Mr. Attorney Gene yal Bradford informed us, that the gentle-men appointed by the Prefident would be glad to have a conference with those appointed by the government, respecting our agreed, observing, that though our view might otherwise countered or militate with each other. Accordingly we met on Tuef day mouning, and verbally communicated our respective powers, which were found an substance to be the same. It was agreed that we would jointly confer with a committee, named for that purpose, at the con-vention on the 14th instant, at Parkinson's ferry, and who are to report to a committee of fixty, called a committee of fafety, on the first Tuefday of next month, and that after the conference we should withdray, and then feverally make our proposals in writing, and request an answer thereto also

in writing.

It rained on Wednesday from morning mill the afternoon, which delayed the ar-rival of the committee of twelve until it was late, fome of them having rode nearly fixty miles. They fent three gentlemen of their number to the commissioners to notify their arrival, and fix the time and place for the conference, which it was a-

greed should be next morning at ten of clock, at the inn of Mr. M Masters, and conducted in private. We met accordingly and contented together treely for feveral hours. Every argument against an Excise was orged, and the exceffive ferment and rage at prefent among the inhabitants were not omitted. We adjourned till four o'clock when we again er, and the commissioners for the govern ment of the union prefented their prop ment of the union presents such proposi-tions in writing; we also presented ours, being short and explicit, a copy of which we have the honour to inclose herewith.
