find their lights, will defeife, or contound them with wrongs, and those, whose tor-bulence and licentiquiness find restraints in equal last, will feek gratification, by e-

for confus and the profligate are ever ready for confus in, which might give them eveey thing, while laws and order deny them every thing. The ambitious and deforate, by combinations, acquire more power and infigence than their fellow citizent : the credulous, the ignorant, the righ and violent, are drawn by artifice, or led by charafter, to join thefe confederacies. The muce free the government, the more certain new, are he grown to a better-three trains and the state of it will and be free. Once formed into boiles, they have a pirit of corps, and are propelled into errors and exceffer, without frame or refection. A fortif grown up in thir progrefs, and every difapprinament makes them after boiles, as to the mean, and every facer(s, more and more immoderate in the objects of their attempts. Chlomy is one of these means. Their whim they cannot pushed on the training is one of these means. more free the co-grammat, the more cercancer purith or control, they can vilify; they can make fulpicion go where their force could not reach, and by tempors and fall-shoods, multiply enemies against their enemies. They become formulable, and they retaliste upon the magistrates, those fears, which the laws have inferred them with. The execution of the laws is not accomplished without effort, without haza dence, inflead of the laws almost executing themselves, more rigor is demanded in the franing, more force to ferere the opera-tion of the laws. The class and unbulent combinations exercing the refiltent pow-re, it is obvious that government will need more force, and more will then be given to

ening the weight of authority, it will acquire a new memorum from clubs and combinations formed to refit it. Turbulent men, cumbadied into holds, will call formers energy to suppress them, than if the diffeontented remained membadied. Dif-turbances, forested from time to time, may undepptly change the mild princi-tles of the fydem, and the little finger then may be tound heavier than the whole hand of the prefent government. For if the clubs and the government should both fulfil, tranquility would be out of the queltion. The continual content of one organized body against another, would produce the abernative extremes of anorchy and excellive rigor of covernment. If the clubs prevails they will be the government, and the more fecure for having become fo by a victory over the exilling authorities.

authorates.

In every expect of the diffession, the fo-cieties, formed to control and vilify a re-publican government, are bateful. They not only of needsity make it more rigorons, but they tend, with a fatal energy, to make it current. By preventing the truth, and speeking jealous, and inviges through the land, they comed the rules to depend on use lopports. The clorping clubs of-fer to faction within thefe doors, the means of carrying every point without. A cor-ropt underthanding is produced between them. The power of the clubs will preprinciples, but names for electionerrie jugglers to decrive with. Calumny effimilate to itfelf the of jefts it falls It will perfecute the man who does his da-
