"It is well known to fuch perious as Thole kings who merit our just execution have paid any attention to the culture of their ministers yet more attractions, their hard was a proper or their authority that they are apt to degenerate. Third their cleray for winditive, have one properties of a fuch to death courageous writers who attracts perior quality feat most a prefent. I paid their power; and we, triumphase Republic every attention to the fowing, but when they were fit to dig. I found them vally in-ferior to those I had eaten with the gentle-

man who turnished me with the feed.

"This degeneration (if I may use the expression) did not proceed from a difference in foil or tillage, both being equally good and equally attended to, their firength having been exhanted by foccessive shoots before I had received them.

"Few potatoes preferve their originality, because they exhault themselves before they are fown; to preferve them in their belt flate, they fliould be fown as foon as they begin to vegetate: If this be not attended to, the poratoe tillage will dwindle, and inftead of large potatoes and a good crop, which the countryman flatters himfelf that rich manere and good tillage maft produce, he will find his potatoes fmall, and ofteatimes featree worth digging."
"The thoots in fpring, when carefully taken off and laid in fmall heaps covered

with earth, like Afparagos plants, are in a flate of vegetation, until you can with convenience plant them; but it is bell to plant them immediately after they are feparated from the potatoe."

"Every kind of paratoe should be fown

feparately; if they be out, but fown with different kinds, they, from contact, parti-cipate of the quality of each other, and produce but a fourious kind of potatoe.

"Good covering, is the very life of potatoe tillage, this is an observation founded on experience, though little attended to, and the reason why pattine tillage is generally so poor, is became they think a light covering of an inch or two sufficient, without ever confidering that the potatoes afcend to the forface, and the more covering the greater produce: This I have experienced in those fixous planted in drills, for the potatoes have afcended on the flock each covering, producing an addi-tional layer, and the whole drill appear.

ing as one continued heap of potatoes."

The foregoing extract, contains the fob-figure of what I deemed the most material praint of the pamphlet, bought within as famil, a compais as I coold, without doing to much injuffer to the fubject. I hope to much injuffer to the fubject of the criter of the faciety, and faster mylelf that it will at least occasion experiments to to made in our American foil, in order to sieurhia whether the very high expecta-tion entertaised in Ireland, with respect t the utility of this differery, can be real-

S. DE WITT.

Wherenpon it was refolved. That the faid abliract be published for the informarecommended to them to make experiments on the culture of potatoes, according to this new mode, and forward the relati thereo', to this faciety.

PARIS, 10th PLUVOISE, (30th Jan.

INTRODUCTION

INTRODUCTION.

(49-THE public bare been informed, that's man named Laccorx, was lately serield in the city of Pais, for being the author of a camphler, in which he sets they question "Whether is the primary aftern. blies were to be fairly concluded, they were to be fairly concluded, they blies were to be fairly confulted, they would not vote for Royalty." His affir occupies the public attention. In a dif-cusion which took place relative to it in the Convention PERRON, Reprefenta-tive of the people, and editor of that ex-cellent journal, called the "Orator of the people," made the following truly just and glory and foeces, it will be gratifying to us, to grant repose to victory, almost weary of our successes. Perhaps it was allowable for us, in the resple," made the follow liberal observations.

EXTRACT. LL France" laid he "have, with loud pludity confirmed the decree of death and execution, which you cree of data and execration, which you have fo justly pronounced against every Royalis'; but it was nevel your intention, mor the wish of the people that this detelled name should ferve rathly to fend to the fealf old a citizen, whom fore-one, to make a paradeof civism, may come, and accuse to you as a Royalist. It is full me to demand certain facts, and nor wain

found of the courts of Europe. The expe-rience of the war, which we have main-tained against all our neighbours, has fostwho do the control rate, and not van trace of the war, which we have main-van enemy to the Republic.—It is too can do their passions, and modified their in-tended to be frightened at the page of a terrell. Earny, now holds out the claw Earn abone can be cruel, and the branch Let up there is to midd other. terells. Europe, now holds out the clive branch: Let us place it in the midft of the will of all Frenchmen is 100 well make it necessary to confolidate rution by the blood of an unbap-

parliaments to jealous of their anthority, tank clergy to vindictive, have not put to death courageous writers who attacked their power; and we triumphant Republicans, we invested with that produgious frength, which utiliverful opinion gives or, fault we do what tyrants have not done.

" What ! Is it then for a pitiful fintence, parely hypothetical, that we are a-gain going to fpill blood! Are we retun-ed to the full days of Thermidor? Are we at Rame, under TIBERIUS ?-But that montier bimfelf, fpared Cominius, a Romoniter bimlelf, fpared Comission, a Zo-man knight, though convicted of having composed fatirical veries against him.

"Be assured, citizens, there exists not a man in France, in possession of his resion, who would shew himself a Royalist. If

fuch a fool was to appear, far from existing the anger of wife men, he would meet only their pity and laughter. It is by ri-dicule and derificon and not by the feafold, that he should be punished—Wrappenin a royal mantle, a crown of thorns upon his head, a scentre in his hand. I would have head, a feeptre in mis Band, I women eave him led about in all public places, and re-posed on a throne covered with mad, to all the ralleries and hootings of the im-mense crowd, who would finch to make merry at fuch a spectacle. If it was tho't proper to push the severity a little famber. his feeptre should be broken over his food-ders; and he should be thus made to feel the weight of Royalty. This fainters correction would have more effect than all the apparatus of torture and the old feafolds, of human blood.

6 Be not deceived, the real Royaliffs are perhaps those, who pretend to be continually frightened at this phantom, and

thanky frigurences at this praction, and who, worthy of every punishment, are constantly demanding with the eagersels of figers guillotines and executioners of tigers gaulotities and executioners. Crathing beneath the weight of gentral indignation, they with to faift it on past heads, or at leaft make you farrest with them. Execution pursues them every where, like an importante Farry, who fecourger them without intermission, and at every firoke of her horrid, whip, entangles them with her ferpents. They faffer : They cannot exist in the midst of the job lie hatred, and would if possible dragyon also, to the brink of that precipice, diwn which their crimes will soon plunge then. Examine the saze prepared for you. So

TLLE DES MOULTER, that la Fontaine of

the revolution, and the interesting Vig-

fters caused to gust on the hoary head of her respectable old father. With the word royalist in their months their innumerable assume the months their innumerable assume so many proofs

of civifm : In a word, if Lacaury per-

ishes, the Decimpirs will triumph, they will again barness the guillotine to their

car; the impr of ROBESPIERE will book of their innocence, and you will furnish an excuse to the canibals whom you are

If we are to credit the latest intelligence from France, and that which feems ment to be depended on, it leads us to believe that the greatest exertions are making in feveral the greatest exertions are making in feerral ports of France, and particularly in Oherbourg, for an expedition against this country, early, in the Spring. It is supposed that should it ever take place, it would also femble in the port of Helland, and make deficest on the Eastern Coasts of this king.

Above one bundred and fifty thousand Above one bundled and fifty thoefand Authrians are already pooring down from all quarters on the banks of the Rhine, which will facefully be reinforced with Fifty thoufand more, and the whole to be completed by May to the amount of Three Hundred Thoufand.

Every exertion is making in the nave that the firength and exertions of this country can pollibly produce; to that there is every well grounded profuect before us of obtaining in time that Peace which in perior power can belt render permanent and honograble.

PROVIDENCE April 18.

By Capt. White it, who arrived here on Thursday evening in 7 days from Charlestown, we learn, that on the evening of the 5th indent, off Charlestown bar an of the 5th infant, off Charleflows hat as action took place between the French privateet hirg Gen. Polski, mounting 16 fix pounders, and the Bermudian privateer thip Sir Charles Grey, mensing 18 twelve and 2 fix pounders. The brig had a valuable prize thip in tow from Jamai, as for London laden with 400 hogheads of fogar, 100 hogheads of rum, and a quantity of cutton.—After a fever engagement, the republicans beat of the hip no availathanding her fonctionity in hip notwithflunding her loperiority in hip notwithflunding her loperiority in number of gans and weight of metal, and got the prize into Charliflown; the latter his wever lost her mess on the bid. The brig had manned nine Prizes previous to brig had minned mine river program to fail this action, and was preparing to fail immediately in quest of the Bernindian.

BOSTON And FRENCH FLEET IN WEST INDIES. Reliance cannot always be placed on re-ports from the Well-Indies. The failing of a fquadron from one iffend to another. or a quactor from one illand to another, is frequently inflated into European flects arriving to the effifunce of the one party or the other. The report of the day is, That a French fleet of fix thins of the liand five frigates with troops, had arrived at Guadaloope from France. This intelligence is brought by Capt. Bacon. from Martinico, who was there informed of it, by the fearcher of the port, and confirmed to him afterwards by a fehooney from Anticeae. Time mult from contradict or confirm the intelligence—one circonstance we can mention, that it has been pretty clearly afterrained, that a fquadrop of the Breft first, which failed in langary laft, was deflined to the Weft.

On Monday there were four arrivals, at Gloucefter, from Marrinico, Sc. Thomas's, Port an Prince, and Goadaloope—the lat ter in 20 days, but being not a word of the
