Extra 9 of a letter from an efficer on board

the Jupiter, to his friend, dated March
the 11th.

" We failed on monday the 2d inflant "We inside on monday the 2d inflant from Sheernefs, and arrived at Oruxhaven on Satorday the 7th, where we found the ice in immedia quantities; and what I am now going to relate, however wonderful it may appear, is a first fact: -- On the 9th laft, a man was taken off a field of ice who int, a man was taken our a held of ice who had been open it ever fince the 17th of February, on which day he, with another man and boy were in a Dutch Dogger from London bornd to Hamburgh, and off the Vogel Sands, her bows were flore in by the ice; they contrived to get fome bread and wine out of her, on which this man fubfilled; the other man and boy died, one in about two days, and the other in abou fix after this happened. The foreviving man flept, every night between the dead bodies, taking the clothes, off from them to thelter himfelf from the weather. I have feen the man and really think it fo

SINGULAR PHENOMENON.

From the Eeft India Oriental Star.

Extract of a letter from Balsfore, dated the

t 5th of Sept.

"On Wednesday the 20th ult. about a quarter before eight o'clock at night, as I was fitting in the wellern verandth of my boufe, in company with two other perfors we were furnized at the appearance in the heavens, of an extraordinary phenomenon which attracted the admiration and atten tion of us all at the prefent moment.
"It was a Meteor, refembling a flar, but

feemingly of much greater magnitude, and infinitely brighter than any of the planets. When we first discovered the phenomenon, it might have been elevated above the horizon about 50 degrees, and was then descending gradually in a W. S. W. direction; during its declination, it made a thort and frequent patie, at which times it appeared far more brilliant, than while it was in motion.

"In the space of five minutes, it had

funk behind the Neelgar hills, which in-tercepted the body of the Imminary, from our view; but the brilliancy of its rays, guilded the tops of the mountains for a n after and produced a fleeting picture "the pencil's mimickil" could convey to the mind no adequate idea of its gran-

We expected to have feen no more of it :-but in two minutes after, we obferved it again, afcending above the hills, where it balanced and waved feveral times in a horizontal direction north and footh rit then funk again, illuminating the hills to its declination as before. "It role and fell a fecond and third

time, with little variation in its move ments after which we faw it no more ; and round was darkness.

The Neelgar hills are diffant from

hence between fix and feven cufs, and from the first appearance of the meteor till its total obscurity from our view, might have been about fifteen or fixteen

"I fend this plain account of it for publeasion in the Star, in hopes that fome other of your correspondents who have ob-ferred the fame phenomena, may be induced to favor the public with a more feientific difeription of it."

ANECDOTE.

WO Itelian brothers of the House of the Limino in Padna, diverting themselves in the country, walked out for themelves in the country, walked out for their pleafore after fupper; and graing on the flarry firmament. One merrily fail to the other "Would I had as many oven as there are flars in the fky. "The other fays, "And would I had a paffure as large as the heavens;" "Where then," faid he "Would's thou feed thy other." "Where thould I feed them" fail his bro-ther. "But in the meline." "But head. ther, " But in thy paffure;" " But what if I would not give thee leave," faid the order: " Then I would take leave whether then world'st or not." "What," faid the other "in spite of my teeth?" "Yes," faid the other, "In spite of all thou could'st do to hinder me." From this idle quarrel and infignificant words, they proceed ed to opprobrious language, in their heat drew their fwords, and tilted at each o ther with fo much fury, they run one and ther through the body, and both died on

rial.
(V. That the Convention decrees from this moment that the fales of real and perforal property of perfons condemn-ed by the revolutioners tributals ed by the revolutionary tribunais, from their field all abhilimment, are fulpended. . That as the fales already made cannot be sonvilled, the committre of le-giflation fhall be directed belides to prefest within the afore mentioned period of one dreade, a manner of indem-nification, to the beits of fuch condemned perfors the condemnation of whom is revoked, by an equivalent for the property which may already have been fold.

Builly d'Angla's speech and project of

NEW SUCCESSES.

RAMEL writes from the army of the North, that the army had gained new fur-refles in Graningen and Friefeland —The even to the fee, and three flands, with an important fortrefs taken.

The Convention decreed, that a Committee th uld immediately be raifed to re-port the measures necessary to put in ope-

stion the confinution of 1793.
Sieves, in the name of the Committee of Government, read a report, on the mean to protect the National Representation from the attacks of the enemies of Liberty: and proposed the following decree:— "That all incitements to royalty; all

that all increments to royally; an informations against the National Representation; all feditions writings; all attempts to release the missoners in the Temple [the children of the late King], and all

correspondence with them, first he held cristinal. Any person convided of any of the above crimes thall be busuithed. "That every attack on a Representa-tive of the People, in the exercise of his standing, shall be punished with basish-ment.

ment.

That whoever thall offer any violence
or That whoever thall offer any violence
finishing that against the National Representa be declared patlawed.

"If in the city of Peris any violence thall be fleared to the National Reprefent-ation, and the Convention be obliged to disperse, the Members shall hold themselves Marse; and the Representatives until from in the different departments shall af-

lion in the diff rent departments fails at-femble in that city.

This device was adopted.

It was allo decreed in eaf- an event like the above that take place, that divisions from the armics of the Republic flouid be reflected to march in praceft the national Reparkentatives, and to avenge their cons-

FENDE IN REBELS.

confidence?

Brave Iohabitants,

Remove your fears; let confidence raturn to your fears; let confidence raturn to your fears; let confidence raturn to your fears; those men whose odions yoke you dread with 10 much reafon; those men, who were as great commiss of their country as of youteless, thall so more be the depositation of powers they for could should.

The trorefeasitive as the people reason.

The reprefensatives of the people intend to confult us in the choice of those who are and ours; in their, men who, in order to alleviete your fuftings, are ready to ferri-fice their own pleafures; happiness and

fortune.

Brave Inhabitants,

Could you have thought us capable of
betraying cowardly your interest? After having supported them with so much Art. I. That all decilions by previolations are stated you. They fipered impositivity retinuals from the 22d Prairial be declared only, as well as the configurates of them.

It has the committee be directed to prefer within one decade a project of a decree to another field of the decilions of revolutionary embonals, against the
