obtain. This proposition thould be discount of jieff; and he concrived that every gratheman ha-ving an opportunity to speak twice would be able to exhaust the (abjest; if he should not, he hoped they would be indulged with an opportunity of

elf. Mr. Matray objected to the motion. Mr. Maditon, Mr. Nicholas, and Mr Page, fop-otted the motion for going into committee of

the whole.

Me. Nicholas fatted the reason which induced him to move for a reference to a committee of the whole on the flate of the Union. He had conceived that the peopetium had not the leaft conceit, in with the constitutional energies relative to the power of the houle in regard to treatize, but as the power of the houle in regard to treatize, but as the relicution has taken the trant in that, he forposed it now proper to go into a committee of the whole on the flate of the Union was yet and differend to.

The motion for reference to a committee on the flate of the Union was put and differend to.

The motion that was to refer the peoperation to a committee of the whole bourfer.

The houle of the whole bourfer.

Mr. Mahlenberg in the Chris.

The houle having reforded intellints a committee of the whole on a refolation calling for certain papers from the Prindent, relative to the trantylately concluded with Green Estima. Mr. Mahlenberg in the chili. Me. Nicholas flated the reason which induced

to examine the merits of the treaty-art 10 occurs the grounds of an imprechament a grind any of the persons controlled in the organization. These Mr. Nicholas believed were the moister for culting for the information to quellize, and no one could fight they had not a clear righter a dor for. The grotisms from South Carolles Line for the controlled for the production of the country of the count - ent the object of the reformion ald sik that gentleman how he would pro cred in the business, before he area the the of the negociator? Would he come before the busic to impeach a negociator before he was in possission of facts on which to ground his acco-faction? It could not be doubted, he faid, that the right of superintendance, gave them the right to of feperintendants, give them the right we he coolded for projections, and no relolator as imprachatent could be properly fat. If the executive information was received, in goan be clearer than the right of requiring a formation, face where is an acknowledged which makes it necessary. But it was his on that the right that house had to enquire the contract of the projection of the project ion the mefits of the treaty, made the information necessary. Weat, he silval, did all the argument amount to, which had been urged against
the mediure! That if the treaty was completely
made, that house had no power to interfere in the
husfreds. There was no other argument, and he
could not object to that. Graitlenens tell the
house that the Perdident and Storate have power to
make treaties, and when made they are the supremitive of the land. But, fail the, (toposis there is a
eladed in the Constitution of the United States,
which given Congrets a power, which expendigoes to treaties, as well as in all other concerns
which repaire money to extry them into certation.—Such a classe, he faid, there was, pathon
controlled the measing, but the expending the
controlled with the treating that house
to hen fail with the treating that house
to hen fail with the supportant of the
public way or the particular one could lought,
It 'ad been did, that it was fusioned a law
to instruct the textifier and one support the treating
to the fail, the did not simple the way to
the fail-gift to any power in the government. He

n. This proposition should be discould by ; and he conceived that every gualeman has no opportunity to fock twice would be able to the stand the fairly it he should not he be baged as no opportunity of fock twice would be able to the stand the fairly it he should not he be baged with an opportunity of the stand of the whole of the stand of t

e passible for bringing the Preliant two locks of plants. There are studies 1 in the reary, and, which will not be objected to by any body, better force by any body, better force by any body, and almost every other forbject; but he read other contents of the possibility of the reading of impossibility the Preliam services of the reading of impossibility the Preliam services of the reading of impossibility the Preliam services of colling for personal services of the reading of the condition of the reading of the condition of the reading of t was his opinion, that they were a conflicted au-thority for examining the conflictionality of the motion.

Mr. Heath spoke in favor of the motion. Mr. Heath looks in lawly of the mostion.
Mr. Seanyick fail, that if that given an one greater pleasint than he had experienced, to obtered the compare with which this fullyies had been difficulted. It had been julipe transact that the quedien one before the boute (did not tumbre the cuttury. It is only a Meston time to the rating it is not confideration. It would be cally recallefted that when the treaty was first publish letted, that when the treaty when the published, finall blame was thrown upon the people who ex-pressed their disapptolation of it, without waiting for all the information which might be given on the shiplet. If the committee of the while there-fore, were to go into the confideration of it, with fore, were to go into the confideration of it, with-out attempting to get that information, it weald be unpardonthle. And he could not fee, that it he report was made, with the proposed clause of acception, how it could be imagined that it in wrived in it, may power unite they did not possible or encought do not be functions of any other branch at government. It has been faid, that the treaty height the law of the land, that boule had nothing to do not apportive in it. Even if he were to confider it in that light, fill he should not think toward to call for notern, our could feech call he
