Community development	_____				

9. Historical significance (include explanation of themes checked above)

This house was built in 1922 for Dr. Henry Martin, a veterinary surgeon, at a cost of \$7500. The stucco house is complexly massed and situated on a beautifully landscaped corner lot. The facade has a shingled gable with the southern side of the gable extending down to frame a recessed entrance porch. There's also a one-story bay window. On the northern side is a similar shingled gable with one side extending down to frame a glassed-in porch.
