9. Historical significance (include explanation of themes checked above)

The original two and a half story brick block was built as the office of Joseph Hebert "Dealer in Pine, Hard Wood Lumber, Sash, Doors, Blinds, Lath and Shingles. Also Contractor and Builder". Mr. Hebert kept a yard, shop and office on Hawley St. and a large mill off of South (near the present day Hebert Ave.). The business was founded in the early 1870's and grew quickly, employing over 100 by 1894. The site still remains in the lumber business today.

A steeply-pitched, slate Mansard roof caps this one and a half story building. Stick-Style gable dormers flank a projexting central pavilion. The recent addition has covered the rest of the facade leaving only the rear and northern side to testify to the 19th century mason's skill.
