9. Historical significance (include explanation of themes checked above)

This two-family residence was constructed around 1900. Butler Place had been opened in 1893 across the Butler homesteads. By this time a number of other streets had opened easterly from Hawley St. and the character of the area had changed since the first subdivisions in the late 1840's. This street has a number of finely detailed two-family and duplex houses. Even though the area could no longer boast of housing the City's elite, the housing stock continued at a quality level.
