9. Historical significance (include explanation of themes checked above)

This fine barn with shingled surface and Victorian cupola appears on the property of M. M. French in the 1884 Walkers Atlas. It closely resembles a barn described as being built for E. E. Wakefield (who owned property to the south on Phillips Place), "an elegant barn...3 stories in the rear, and two in front." It is possible that the structure was moved from the Wakefield property to the French property prior to 1884.

At one time a tea room, the structure is presently used as a residence.
